PROFESSIONAL SUMMARY

Senior Customer Support Specialist with 9+ years of experience in technical support, user operations, and customer-facing roles for B2B SaaS and enterprise digital products. Expert in investigating complex issues beyond standard support – validating data flows, identifying root causes, and coordinating with Product, Engineering, and cross-functional teams to drive resolution.

Proven track record of managing high-volume ticket queues, maintaining SLA compliance, and achieving **90%+ customer satisfaction**. Skilled at translating complex technical or operational issues into clear, user-friendly communication for diverse stakeholders. Experienced in Zendesk, ticketing workflows, and support operations.

Thrives in fast-paced, high-growth environments. Passionate about using AI and automation to improve support processes and reduce recurring issues. Brings hands-on experience with payment workflows, transaction validation, and fintech integrations through ERP and e-commerce platform support.

CORE COMPETENCIES

- **Customer Support & Operations:** Ticket Management, SLA Compliance, Escalation Workflows, Root-Cause Analysis (RCA), User Communication, Knowledge Base Management
- **Ticket & Collaboration Platforms:** Zendesk, Jira Service Management, GitHub Issues, Confluence, Slack
- **Payment & Transaction Workflows:** Payment Validation, Transaction Lifecycle Troubleshooting, Data Reconciliation, Fraud/Dispute Investigation
- **API & Integration:** RESTful APIs, Postman, Webhooks, n8n, Zapier, Make (Workflow Automation)
- **Cloud Platforms:** AWS (IAM, VPC, RDS, EC2), Google Cloud Platform (GCP), Microsoft Azure
- **Databases:** PostgreSQL (Query Optimization, Performance Tuning), MySQL, MS SQL Server
- **Monitoring & Observability:** Datadog, Grafana, CloudWatch, Sentry, OpsGenie
- **Operating Systems:** Linux (Ubuntu, CentOS, Bash/Shell), Windows Server

PROFESSIONAL EXPERIENCE

Senior Technical Support Engineer (Contract)

Tobisoft Technologies – Remote | 05/2023 – Present

- Serve as the primary technical point of contact for enterprise customers of a B2B SaaS logistics platform, owning support tickets end-to-end from triage to resolution while maintaining strict SLA compliance.
- Investigate complex issues beyond standard support: validate payment and invoicing workflows, analyse transaction failures, and identify root causes by examining logs, PostgreSQL query plans, and Python/Django code.
- Coordinate with Product, Engineering, and Payments teams to resolve critical customer-impacting issues, ensuring clear communication and timely resolution.
- Manage high-volume ticket queues using Zendesk, prioritising and escalating issues with appropriate context and supporting information.
- Monitor payment flows and transaction lifecycles, diagnosing failures in third-party payment integrations and reconciling data discrepancies.
- Identify recurring issues and report trends affecting product, payments, or user experience; partner with engineering to ship long-term fixes, reducing repeat incidents by **20%**.
- Build and maintain internal documentation, troubleshooting runbooks, and FAQs, reducing resolution time for new team members by **20%** and enabling faster self-service for customers.
- Track support metrics (response time, resolution time, CSAT) and flag trends requiring attention; maintained **99.9% uptime** and achieved **90%+ customer satisfaction**.

Application Support Engineer

Plotwise B.V. – Delft, Netherlands | 01/2022 – 02/2023

- Owned partner support requests end-to-end for a B2B SaaS logistics platform — triaged via ticketing system, performed first-line diagnostics, and routed complex cases to engineering, reducing system downtime by **40%**.
- Collaborated with cross-functional teams (Engineering, Product, QA) to resolve escalated and recurring issues, ensuring prompt and permanent fixes.
- Authored and maintained knowledge-base documentation, troubleshooting guidelines, and best practices, cutting team-wide issue resolution time by **20%**.
- Supported service configuration and application onboarding tasks, validating data integrity before deployment to prevent downstream incidents.

Technical Support Consultant

AGL Consulting Limited – Nigeria | 06/2019 – 12/2021

- Led technical support initiatives for enterprise ERP systems with integrated financial and payment modules, serving as the trusted technical advisor for business stakeholders.
- Investigated and resolved complex transactional issues, validating payment status, reconciling data across systems, and coordinating resolution with internal teams.
- Conducted extensive API testing using Postman and manual validation, achieving a **98% success rate** in software deployments for enterprise clients.
- Explained technical and operational issues in simple, user-friendly terms to stakeholders, improving application uptime by **15%** and increasing user adoption by **30%**.
- Developed business intelligence dashboards, delivering actionable insights and identifying support trends for proactive decision-making.

Application Support Engineer

Percee Investment Limited – Nigeria | 12/2016 – 05/2018

- Provided customer-facing L1/L2 support for internal and third-party applications across distributed Azure/AWS environments, consistently achieving a **90%+ customer satisfaction** rating.
- Managed ticket queues, prioritised issues, and ensured timely resolution in line with SLAs.
- Spearheaded the migration of critical business applications to the cloud, reducing infrastructure costs by **25%** and improving overall system availability.

IT Business Support Analyst

OX Tech Systems Limited – Nigeria | 09/2014 – 11/2016

- Translated stakeholder requirements into functional specifications and plain-language guidelines for development teams, ensuring alignment between business needs and technical delivery.
- Conducted end-to-end testing and process modelling to deliver high-quality client solutions and streamline partner onboarding.

- Served as the first point of escalation for support queries, building foundational expertise in ticket triage, user communication, and cross-team coordination.

EDUCATION

- **B.Sc. Computing and Information Systems** – Athabasca University, Canada | 2024
- **Professional Graduate Diploma in Information Technology** – Chartered Institute of IT, UK | 2014
